Background

These ORCKA Canoe Trip Leader Standards were prepared by the Safety committee of the Ontario Recreational Canoe and Kayak Association (ORCKA) in response to a number of requests for comment from the Ontario Coroners' Office. When developing these standards, the Committee investigated related standards of care from a number of similar outdoor and adventure sports, both of a National and International nature. Best practices were then identified and included in these Canoe Trip Leader Standards.

Organizations and groups who canoe trip in a wilderness environment expose themselves to a certain amount of risk. Wilderness risk management involves pre-trip planning, equipment selection, safety equipment, leader qualification, participant skill level and more. This document specifically addresses the canoe leader qualifications by setting as a standard the minimum qualifications to lead a canoe trip safely in both a wilderness and/or non-wilderness environment.

For the purposes of these ORCKA Canoe Trip Leader Standards, a Canoe Trip Leader is a current ORCKA certified individual who is leading a canoe trip in a non-wilderness or wilderness setting in the Province of Ontario as part of an ORCKA sanctioned course or activity.

These ORCKA Canoe Trip Leader Standards replace the current ORCKA Canoe Trip Leader Standards adopted by ORCKA in 2004.

Organizations are encouraged to adopt these recommended ORCKA Canoe Trip Leader Standards when hiring staff or selecting Canoe Trip Leaders for the conduct of the trip component of ORCKA Program in both non-wilderness and wilderness areas of Ontario.

These ORCKA Canoe Trip Leader Standards were formally adopted by its Board of Directors on January 27th, 2007 and come into effect January 1st, 2008 as the standard for the conduct of the trip component of all ORCKA courses, including ORCKA Canoeing Instructor courses, ORCKA sponsored canoeing courses and all ORCKA canoeing courses being conducted in the Province of Ontario by ORCKA Organizational Members.
